

BRAINERD DAILY DISPATCH.

VOLUME 5, NO. 135.

BRAINERD, MINN., THURSDAY, NOVEMBER 9, 1905.

PRICE TWO CENTS

ELECTION SUMMARY

PATTISON (DEM.) CHOSEN GOV.
ERNOR OF OHIO BY AN IM-
MENSE PLURALITY.

HEARST INITIATES CONTEST

ALLEGES EVIDENCE OF WHOLE-
SALE ILLEGAL ACTS AT NEW
YORK CITY POLLS.

Washington, Nov. 9.—The election of John M. Pattison, Democrat, as governor of Ohio by approximately 40,000 plurality over Myron T. Herrick, the present Republican governor; a Democratic working majority in both houses of the Ohio legislature; an immediate appeal by William R. Hearst, the Municipal Ownership candidate for the New York mayoralty, to the supreme court to contest McClellan's re-election in that city on the basis of alleged evidence of wholesale illegal acts at the polls; a plurality of 3,485 votes for McClellan, and immediate contest by the Fusionists in Louisville in the courts against the election of Democratic municipal officers and members of the legislature, were the developments in the day's election aftermath. McClellan's plurality is the minimum on record for a successful mayoralty candidate in New York. Mr. Hearst's managers claim evidence of illegal acts against 1,000 inspectors of election and that 30,000 of his adherents were turned back from the polls because their names had already been voted. District Attorney Jerome has announced he will immediately make a searching investigation of the

Alleged Wholesale Frauds

and has ordered the returns from the Eighteenth and Sixth assembly districts to be carefully guarded. These are the home districts of Tammany Leader Murphy and "Tim" Sullivan.

In Louisville the Fusion party managers claim a non-election in fourteen precincts because of the disappearance of election paraphernalia, that Democratic workers confiscated the ballot boxes in fourteen other precincts and allowed falsification of returns and alleged activity of "thugs" and repeaters.

All through Ohio the belated returns showed Republican losses and Republicans concede Pattison's plurality reaches 25,000. The Democrats claim Pattison's plurality approximates 55,000, which would elect the entire Democratic ticket. Republicans concede the Democrats between two and five majority in the senate and ten to fifteen in the house, while the Democrats claim a majority of five in the senate and twenty-seven in the house.

The Maryland legislative situation is in doubt.

In Rhode Island the Republican gubernatorial candidate has a plurality estimated at 5,000 and Providence elects a Republican mayor for the first time in many years.

Pennsylvania's Great Upheaval.

The City party's (reform) plurality in Philadelphia is 43,333 for sheriff and the Fusion candidate for state treasurer (Berry) carried the city by over 36,000 plurality. The upheaval was the greatest in Pennsylvania for many years.

In Massachusetts Democratic threats are made for a recount of the vote for lieutenant governor. The Republicans in Massachusetts score 23,116 plurality for Guild for governor, though Draper, for lieutenant governor, got less than 2,000 plurality. The Democrats gained three senators and one representative in the legislature.

Every candidate of the Union Labor party in San Francisco was elected by a substantial majority. In Salt Lake the anti-Mormon victory is made complete by the election of the entire American party ticket.

The Kentucky legislature, which will elect a successor to Senator Blackburn, apparently will include 31 Democrats, 5 Republicans and 2 doubtful in the senate and 79 Democrats, 14 Republicans and 7 doubtful in the house. The Democrats elected a mayor in Louisville by about 2,500.

Nebraska was swept by the Republicans.

Plurality in Nebraska May Reach Twenty-five Thousand.

Lincoln, Neb., Nov. 9.—The election in Nebraska has the appearance of a Republican landslide on the head of the ticket. The plurality for Letton for supreme judge will not be less than 18,000 and may exceed 25,000. An average Republican gain of six and a half votes to the precinct is shown. Both the Republican candidates for regents of the university are elected, but their plurality is considerably less than that for judge.

Defeated Candidate Insane.

Zanesville, O., Nov. 9.—J. E. Crozier, Republican candidate for member

of the board of public service, who was defeated at Tuesday's election, was during the day adjudged insane and committed to the Columbus state hospital. His mental condition is attributed to the worry over the election.

Indianapolis Official Returns.

Indianapolis, Nov. 9.—Returns of the city election officially compiled give Charles A. Bookwalter, Republican, for mayor a plurality of 1,661 over his Democratic opponent, Mayor Holtzman.

SUFFRAGE AMENDMENT BEATEN.

Large Majority Against Measure in Maryland.

Baltimore, Nov. 9.—Late returns dispel much of the doubt as to the result of the election in this city and state. With a few precincts of the usual Democratic cities yet to hear from the defeat of the suffrage amendment to the constitution by 28,000 to 29,000 is conceded. Atkinson, Democrat, is conceded the state comptroller-ship and his majority will probably run over 6,000. That the lower house of the state legislature will be Democratic is conceded by Republican sources of information. It will probably be made up of 53 Democrats, 3 Independent Democrats and 8 Republicans. The state senate stands 18 Democrats and 8 Republicans. The Democrats will therefore elect the state treasurer and the board of public works will be Democratic.

RECOUNT OF VOTES

HEARST TAKES FIRST STEP IN
NEW YORK CITY ELEC-
TION CONTEST.

New York, Nov. 9.—With the granting of an order by Supreme Court Justice William J. Gaynor in Brooklyn compelling Police Commissioner McAdoo to remove every ballot box from all the precincts in Greater New York to the bureau of elections William R. Hearst, the defeated Municipal Ownership League candidate, took his first legal step in a fight to secure a recount of the votes cast on election day.

The order was granted after Justice Gaynor had reviewed affidavits submitted by Mr. Hearst's attorneys and half an hour later Colonel Alexander S. Bacon and F. W. Brown, representing Mr. Hearst, served an order on Commissioner McAdoo, who sent out a general order to every precinct in Greater New York instructing the captains or other officers in charge to send the ballot boxes straightway to the bureau of elections in Manhattan. In signing the order Justice Gaynor said:

"The police have nothing whatever to do with the ballot boxes and it is most astonishing that they should have possession of them. They have no right to even touch them. The order is granted."

The granting of the order came unexpectedly and caused much surprise and, with the opinion of Judge Gaynor that the police have no right to the ballot boxes and should not even touch them, a new aspect is placed on the case. This is the first time such an order was ever issued, as heretofore the police have always had charge of the ballot boxes after the count had been taken at the polling places. They are removed to the stationhouses immediately after the inspectors and clerks have counted up the ballots.

Mr. Ivins, the defeated Republican mayoralty candidate, was asked by Mr. Hearst to act as his counsel in the fight he will wage to be declared mayor. Mr. Ivins refused, but said he would gladly co-operate with the attorneys who will conduct the fight as an associate counsel.

IS STILL UNCERTAIN

RESULT OF ELECTION IN OHIO

BELOW GOVERNOR REMAINS
DOUBTFUL.

Columbus, O., Nov. 9.—That John N. Pattison has been elected governor for the next three years by a plurality running well above 40,000 is well settled, as also is the Democratic working majority in both houses of the legislature, but there is still some uncertainty as to the balance of the state ticket. The earlier returns were apparently from sections favorable to the governor, for he held a lead over the balance of his ticket until fuller returns from the country districts cut into his vote severely and by the middle of the afternoon he seemed to be over 40,000 votes behind the balance of his ticket. If that difference stands the victory of these other officers will depend on the size of Pattison's plurality, with the chances in favor of the choice of the entire Democratic list.

Chairman Garber figured pluralities for Pattison that aggregated close to 55,000, in which event the entire Democratic ticket was safe. The Republi-

H. F. MICHAEL CO'S Daily Store News

A very much mistaken idea about Furs

Some have the mistaken idea that to secure a good quality of fur they must purchase them in a city at least as far away as the twin cities. It might surprise you were we to show you the same furs at the same and even lower prices and yet we can do this.

Our dollars are just as large as the city merchants and the markets of the world are open to us.

Then, there is another feature you should consider, and that is, that when you purchase of us you will have the assurance that should anything not come up to what it is represented to be, you will find us more than ready to right what is wrong.

Would you like to Secure a Bargain?

Of course you would; never a lady but that appreciates a "genuine" bargain. Neither was there ever a concern that likes to give them more than we do.

Here is our point: We are running a Mid-Season Clearance Sale this week and we certainly are giving some good bargains in dependable merchandise. From the dress goods section to the suit section; every department is yielding its share. Let us make a suggestion: Come to our store and ask our sales people to show you what we are offering. Do so tomorrow and you will find it immensely profitable.

ans have given out no later estimates since that of Chairman Dick conceding the election of Pattison by 25,000 plurality, but later reports received at headquarters indicate that a larger figure is correct.

Republican estimates give the Democrats two to five majority in the next senate and from ten to fifteen in the house and these are probably the minimum estimate. The Democratic claim is a majority of five in the senate and twenty-seven in the house.

The widespread scratching of tickets caused such delay in the count that forty hours after the close of the polls there was still uncertainty notwithstanding the overwhelming nature of the Democratic victory.

Football Games Abolished.

Alton, Ill., Nov. 9.—As the result of the death of James Slater of the Alton high school, who died from injuries received in a football game, the Alton board of education has adopted a resolution condemning the game and placing the ban on football in all Alton schools.

FUGITIVE FROM JUSTICE.

Former California State Senator In-
volved in Bribery Scandal.

Sacramento, Cal., Nov. 9.—Former State Senator Eli Wright is a fugitive from justice. Wright, whose home is at San Jose, became involved in the bribery scandal at the last session of the legislature, which has thus far resulted in sending State Senators Bunker and Emmons to the penitentiary for accepting money to shield building and loan associations from threatened legislation in their affairs. Wright's case was called in Superior Judge Hart's department of the superior court during the afternoon, but the defendant failed to respond. Wright's cash bail of \$2,500 was declared forfeited and a bench warrant was issued for his arrest.

SWITCHMEN TO STRIKE.

Austrians Demand More Pay and Less
Hours.

Vienna, Nov. 9.—Railroad switchmen from Upper and Lower Austria, Salzburg, the Tyrol and Styria met here during the evening and practically decided to strike for a 20 per cent increase in wages and shorter hours. The strike will take the peculiar form of "passive resistance," borrowed from the Italian strikers. This consists of the strict observance of all the existing regulations for traffic imposed by the ministry of communications, which are so complex and absurd that traffic is only possible by virtually ignoring them. The observance to the letter of the regulations will so hamper or delay all traffic as to seriously cripple commerce.

KILLED BY GUN SET FOR DEER.

Aitkin (Minn.) Man Runs Into Fatal
Device of His Own Making.

Aitkin, Minn., Nov. 9.—W. F. Caldwell of Aitkin was killed near Big Willow river, sixteen miles north of here. He was building a house for W. E. Dean, an Iowa man, and set a gun for deer, and forgetting where he set the gun, ran into it. Caldwell was shot in the leg above the knee and died a short time afterwards. He was about fifty years old.

TAKES RADICAL STEP

MISSOURI COMMISSIONER SUS-
PENDS CERTIFICATE OF THE
NEW YORK LIFE.

ISSUES A SCATHING ORDER

COMMENTS ON ALLEGED EXPEN-
DITURE OF FUNDS FOR UN-
LAWFUL AIMS.

Jefferson City, Mo., Nov. 9.—W. D. Vandiver, state superintendent of insurance, has suspended the certificate of authority of the New York Life Insurance company to do business in this state. Following is the order:

"Notice is hereby given that whereas, information in my possession and verified by examination of the official stenographer's report of the recent examination of officers of the New York Life Insurance company of New York by the legislative investigating committee of the state of New York gives me reasonable opportunity to suspect, and I do suspect and believe, the stability of said company has been impaired by the expenditure of funds of said company for unlawful purposes and that the further continuance of the said New York Life Insurance company in the writing of life insurance in this state under its present management is hazardous to the public and to the holding of its policies, therefore, I, W. D. Vandiver, superintendent of the insurance department of the state of Missouri, have this day suspended the certificate of authority, heretofore granted to said company to do business of writing life insurance in this state."

POLICYHOLDERS SAFE.

New York Life Attorney Comments on
Vandiver's Action.

St. Louis, Nov. 9.—"The policyholders of Missouri will not be hurt by the act of insurance Commissioner Vandiver in suspending the license of the New York Life Insurance company to do business in this state. We will see that their interests are protected to the fullest extent. We cannot tell yet what we will do to meet the emergency," said Edward C. Crow, former attorney general and one of the attorneys for the New York Life company, who informed of Commissioner Vandiver's action.

INSURANCE INQUIRY REOPENS.

President Hegeman of Metropolitan
Life Testifies.

New York, Nov. 9.—In the testimony John H. Hegeman, president of the Metropolitan Life Insurance company, before the insurance investigation committee upon the resumption of the insurance investigation during the day

it was brought out that industrial insurance was considerably more expensive than other forms of life insurance and Mr. Hegeman, after classing industrial insurance as retail and the ordinary life as wholesale, illustrated the fact by an example in which for a stated age it was shown that for \$1,000 policy of ordinary life the Metropolitan Life charged \$16.55 annually, while for 1934, the nearest amount for the state age under the industrial plan, \$31.20 was charged.

Mr. Hegeman was on the stand the greater part of the afternoon and his testimony was along the line of the amount of the company's increase in business.

At the morning session Emory McClintock, actuary of the Mutual Life Insurance company, who had been examined in part at previous sessions, was called and continued his testimony on technical insurance.

SMALL ENTRIES STOPPED.

Land Decision Affecting Minnesota
and Wisconsin.

Washington, Nov. 9.—Under a recent order from the secretary of the interior no entries for isolated and disconnected tracts of public lands containing less than forty acres will hereafter be allowed until after congress is given opportunity to enact further laws for their disposal.

Under the present law these tracts, including very small islands in Minnesota and Wisconsin which are becoming very valuable and are being eagerly sought for summer residences and resorts, must remain subject to homestead entry for three years before they can be sold for cash to the highest bidder. Tracts of this character are of little real value for agricultural purposes and the manner in which the title is now acquired is considered by the department to be a perversion of the homestead laws. It is believed that they should be permanently withdrawn from homestead entry and sold to the highest bidder in the first instance, thus enabling the government to realize their true value.

Indictments Against Aldermen.

Akron, O., Nov. 9.—Indictments were returned during the afternoon against J. Perley Hale and J. K. Arondson, members of the Akron city council, charging them with soliciting bribes.

TELEGRAPHIC BREVITIES.

It is announced at Tokio that a copy-right convention between Japan and the United States has been satisfactorily concluded and is one the eve of signing.

Lord Rothschild of London and Jacob H. Schiff of New York have each cabled \$50,000 to St. Petersburg for the relief of the Jews who suffered from the recent disturbances.

President Roosevelt has informed a delegation of residents of Oklahoma that he would recommend in his forthcoming message to congress single statehood for Oklahoma and Indian Territory.

Wu Ting Fang, formerly Chinese minister to the United States, is reported to be totally deaf as the result of the explosion of a bomb thrown by a fanatic when the Chinese commissioners were leaving Peking to visit foreign countries.

BANE'S BUSY STORE

MITCHELL IN INDIANA.

President of Mine Workers Puts in
Busy Day.

Clinton, Ind., Nov. 9.—President John Mitchell of the United Mine Workers of America was the guest of the people of this district during the day. Work was suspended at twelve mines and every business house was closed during the mass meeting. President Mitchell spoke to about 12,000 school children in the morning, addressed over 5,000 people in the afternoon and delivered a response at the reception in his honor in the evening.

In the afternoon Mr. Mitchell spoke of the relations of labor to capital. He denied the statement credited to him that the interests of capital and labor are identical.

"Their interests are not identical," said Mr. Mitchell. "They are reciprocal and miners are jointly interested in the production of coal and of obtaining good markets. Their interests diverge when it comes to dividing the profits of the industry. The best thing the miners and operators ever did was to establish the joint agreement. No man has ever accused me of being afraid to strike. While I am not afraid to strike, I do not believe in such measures except as a last resort."

ELDERLY MAN SUICIDES.

Follows Woman Across Continent in
Effort to Wed Her.

New York, Nov. 9.—After following a woman across the continent in a vain attempt to persuade her to marry him, only to see her board a steamer for Europe, Walter Herling, an elderly man, supposed to be from Lindsay, Cal., committed suicide in a hotel in Hoboken.

When Mrs. A. Tilloch, a comely German widow, arrived in Hoboken from Bremen on Oct. 19 she told the people of the hotel where she stopped that she was on her way to Lindsay, Cal., to marry a man to whom she was engaged. On Sunday she returned and said she was on her way back to her home in Germany. The same day Herling also arrived at the hotel. He was suffering from consumption, for which reason it was understood that Mrs. Tilloch had refused to marry him. The widow sailed for Bremen and Herling was found dead, having taken poison.

WEEK END EXCURSIONS.

Chicago Great Western May Precipitate Rate War.

Chicago, Nov. 9.—The Chicago Great Western Railway company created much disturbance among the lines of the Western Passenger association during the day by the announcement that commencing this week it will conduct week end excursions over its entire system. It is proposed to sell excursion tickets each Saturday to and from all cities within a radius of 150 miles for one fare for the round trip. These tickets will be good returning on the morning trains of the Sunday or Monday following. Tickets will be sold each Friday between all points more than 75 and less than 150 miles distant for one and one-third fare with a return limit of five days. In addition tickets will be sold every Friday between all points on the line more than 150 miles apart for one fare plus \$2. These tickets will carry a five-day limit, but can be extended ten days by the payment of a small fee.

These excursions will not include travel between Chicago and St. Paul and Minneapolis, but threats have been made by other roads to reduce regular rates between these points in retaliation for the action of the Great Western.

TRIAL OF PAT CROWE.

Will Be Prosecuted for Shooting Police Officer.

Omaha, Nov. 9.—The trial of Pat Crowe has been set for Dec. 4. He will be first tried on the charge of shooting with intent to kill Officer Jackson who attempted to arrest a man alleged to have been Crowe. Jackson received a serious wound in the thigh. Nearly a hundred witnesses are named in the brief filed by the prosecution who are to be called in case Crowe is later brought to trial on the highway robbery charge in connection with the Cudahy kidnapping.

Land Controversy Settled.

Washington, Nov. 9.—Secretary Hitchcock has closed one of the controversies as to the White Earth reservation by directing Agent Michelet to complete allotments according to the plans outlined before protests were made to the department. The allotments already made under the plan are to stand.

Leather Workers Strike.

Montreal, Nov. 9.—The leather cutters in all but three boot and shoe factories have gone out on strike for a time scale instead of piece work. The number of men out amounts to 350, but unless the difficulty is settled shortly between 3,000 and 4,000 other leather workers will follow.

QUAIL A BOON TO FARMERS.

An Enthusiast's Estimate of Their Value in Eating Weed Seeds.

Bobwhites, or the common quail of New England, eat tons of weed seeds annually and should be protected by every farmer as his greatest boon, says the Washington correspondent of the Boston Transcript. Such is the verdict of an enthusiast in the department of agriculture. This authority has taken great pains to study the quail from every point of view, and the results of his investigations will soon be available in a bulletin. He has even taken the trouble to compute the possible amount that may be disposed of in Virginia and North Carolina, where there are believed to be four bobwhites, or "partridges," as they are known in the south, to every square mile, making 354,820 in each of the two states. According to his figures, the quail of the two states each year dispose of 1,341 tons of noxious seeds.

This activity justifies the theory that every farmer should regard the quail on his land as his personal property, like his poultry and live stock. The farmer's cupidly may be incited by telling him how much advantage he can derive from the judicious disposition of quail, or the privileges for hunting them. Some farms containing from 500 to 1,000 acres would by this method probably yield a better revenue from bobwhites than from poultry. Shooting rights leased at high prices are a source of regular income in North Carolina. Since much of the land throughout the southern states can hardly be farmed profitably, millions of dollars might be made by the proper management of the quail crop. The time is perhaps not distant when farmers will protect these birds from hawks, foxes and poachers as carefully as they do now their chickens. The transfer of the time honored scarecrow from the cornfield to the covers of the quail might be a unique but not impossible innovation.

Constipation is the main cause of appendicitis. If you are constipated you are taking big chances. Better get a bottle of Dr. Adler's Treatment—the great appendicitis preventative. No need to worry then. Johnson's Pharmacy.

Houses for Rent and Sale.—Nettleton, 85tf

Accused of Killing His Father.

Wausau, Wis., Nov. 9.—Stannie Swatoski, aged twenty-two, has been arrested near Knowlton on the charge of killing his father. It is charged that the young man's father threatened his life with a large knife and in self-defense the boy shot him with a Winchester rifle, killing him instantly.

TREPOFF STEPS OUT

MILITARY GOVERNOR OF ST. PETERSBURG SAID TO HAVE RESIGNED.

TROUBLES OF COUNT WITTE

PARTY FACTIONS SPRING UP AS PLANS OF THE PREMIER DEVELOP.

St. Petersburg, Nov. 9.—Prospects are growing brighter for a working combination between Count Witte and the conservative faction of the constitutional Democrats and the wing of the zemstovists which was left behind in the rapid development of reform ideas of successes congresses.

The resignation of General Trepoff and his nomination as post commander of the imperial palace is generally reported in the city. Count Witte, who has been in constant communication with prominent members of the Constitutional Democratic party for several days past and who has steadily been informed that the dismissal of Trepoff is an indispensable preliminary to any co-operation of that party, seems finally to have yielded this condition.

Count Witte was favored by a split which manifested itself in a meeting of prominent St. Petersburg members of the party during the evening. While a strong faction declared for a hard and fast union of Radicals and Social Democrats until the work of freedom shall have been completed by the convocation of a constituent assembly a majority seemed inclined to come to the support of Count Witte, provided that sufficient guarantees be given for the carrying out of the promises contained in the imperial manifesto and of Count Witte's announced programme in full and in good faith.

CHANGES HIS PLANS.

Count Witte Unable to Form Liberal Cabinet.

London, Nov. 9.—The St. Petersburg correspondent of the Daily Telegraph asserts that Count Witte has been compelled to abandon his efforts to form a cabinet composed solely of Liberals and Reformists and to fall back on experienced officials, whose first duty will be to extinguish the revolutionary conflagration by cashiering all those officials who by connivance or otherwise are responsible for the recent outrages and massacres. The correspondent says that General Trepoff, assistant minister of the interior, whose resignation Count Witte has repeatedly refused to accept owing to his ability in keeping the forces of disorder in check, is now likely to insist upon retiring.

CURT AND FORMAL MANIFESTO.

Czar Accepts Grand Duke Vladimir's Resignation.

St. Petersburg, Nov. 9.—Grand Duke Vladimir's resignation of the post of commander of the guard and of the military district of St. Petersburg, which has been in the hands of Emperor Nicholas since the degradation of Grand Duke Cyril, his son, on account of his marriage with the divorced wife of the Grand Duke of Hesse, is announced by the emperor in a curt and formal manifesto, which refers briefly to Grand Duke Vladimir's appointment at the wish of Emperor Alexander III. and of his desire to retire on account of ill health. In closing the manifesto contains the stereotyped expression of thanks for the grand duke's long service.

FINANCIAL AID FOR JEWS.

Call to the Race in America Issued From Chicago.

Chicago, Nov. 9.—To insure united action in giving financial aid made necessary by the massacres of Jews in Russia a call to the Jewish people of America has been issued here by Adolph Kraus, president of the Independent Order of B'nai B'rith, who has been in telegraphic correspondence with the leaders of all Jewish organizations in the United States and was authorized to sign the call on behalf of the head of each organization. This is the first time on record that such a concerted movement has ever been made by the Jewish societies.

PLANNING MILITARY COUP.

Officers of Several Russian Regiments Favor Revolt.

London, Nov. 9.—The correspondent of the Daily Mail at St. Petersburg declares that a military coup is forthcoming. He says the officers of several well known regiments definitely signified their adherence to the constitutional movement and that the people's next ultimatum to the autocracy will find the bulk of the army at least passive.

City Militia Plan Failed.

Moscow, Nov. 9.—The city council during the day rejected the proposal to organize a city militia. Only ten votes were cast in favor of the proposition.

Railway Men Return to Work.

Irkutsk, Nov. 9.—All the railroad men have returned to work and trains are moving in all directions.

THE RESERVE CAN BE MADE TO PAY

General Andrews, Chief Fire Warden, Makes a Visit to Forest Reserve

A SHORT DISTANCE NORTH

Considerable Reproduction of Pine On Reserve Which Can be Cut to Advantage

General C. C. Andrews, state fire warden, Prof. S. B. Green and Prof. Cheney, of the State Agricultural college, have been in Brainerd for a few days having returned to St. Paul yesterday. They came up to take a trip to the state forest reserve located about sixteen miles northeast of Brainerd in Cass county, for the purpose of studying the conditions, etc. There are about 1,000 acres in this reserve and General Andrews is of the opinion that this tract can be made to pay as there is a considerable reproduction of jack pine.

General Andrews in speaking of the matter said:

"The timber was cut about twenty-five years ago, and there is considerable reproduction of jack pine. There is a pulp factory and water power in Brainerd which we visited. The mill pays \$4 per cord for spruce, of which it uses about thirteen cords per day.

"Assuming that the land is third class, which is about right," said Gen. Andrews, "the yield in thirty years, according to the Saxony yield tables, would be 23 cords per acre and in 40 years the stumpage would be 35 cords per acre. At present prices the 1,000 acres would bring in \$46,000 in 30 years, or \$70,000 in forty years if planted to spruce. This is at the rate of \$2 a cord on the stump, which leaves \$2 per cord for hauling and cutting. We have now in the nursery 800,000 spruce seedling a year and a half old, some of them six inches high, which would be enough to plant the entire reserve if we had the money to do it with, but there is none appropriated. The reserve is half a mile from Gull lake, which empties through the Gull river into the Crow Wing river."

For 21 years shippers of grain and dealers in options have traded with L. T. Sowle & Son, one of the oldest grain firms in Minneapolis Chamber of Commerce. It pays to do business direct. 129th St.

DELINQUENT SALE IS LIGHT

County Auditor Mahlum Sold but Four or Five Tracts of Land All Day Wednesday—Little Interest Taken

The delinquent land sale being conducted by County Auditor Mahlum at the court house has not attracted a great deal of attention so far as the purchase of lands is concerned. All day yesterday the auditor sold but four or five parcels of land.

The advertisement of the sale has, however, had a good effect in another direction and considerable money has been added to the county's exchequer. It has had the effect of bringing in a lot of money on redemptions. The list is being gone over and the auditor expects to get through today.

There's no beauty in all the land That can with her face compare, Her lips are red, her eyes are bright, She takes Rocky Mountain Tea at night.

DAIRY AND CREAMERY MEETING

Held at the Sewell School House Where Prof. Shrewsbury Delivered an Interesting Address

EDITOR DISPATCH

Dear Sir:—Through the hearty cooperation of the school board (and the teacher we must not forget her) we held a very interesting dairy and creamery meeting in the Sewell school house the 2nd inst., with a good attendance of farmers and their wives. Prof. T. L. Haecker and F. Shrewsbury were slated for the occasion but through some misunderstanding the professor arrived too late for the meeting.

The subject of feeding and care of the dairy cow was ably handled by Mr. Shrewsbury of the Dairy and Food commission. The farmers took a deep interest and went away satisfied with the meeting, and as it was the first of the kind held in Crow Wing county they have asked the writer to arrange for another in the near future. Will say for the benefit of others that Mr. Haecker is professor of dairy husbandry at the agricultural experiment station St. Anthony Park, St. Paul, and has the interest of the farmer at heart.

We would have been pleased to have seen some of the influential men of Brainerd among the number, although the house being full we could have made room for them, for when Brainerd has a good thing the farmers all join in with them and we want Brainerd to know that the surrounding country is not asleep.

"Let us hear from the other fellows," W. H. THOMPSON, Butter Maker, Rose Creamery.

No matter how long you have had the cough; if it hasn't already developed into consumption, Dr. Wood's Norway Pine Syrup will cure.

There will be an excellent supper given in Walker's hall, Saturday evening, Nov. 18, by the Woman's Exchange. One of the good things on the menu will be Elks' hash. Supper will be served from 4 to 8 o'clock at 25 cents. Any person wishing to dispose of handiwork, will please leave it at Mrs. McDonald's, 218, 7th street, for the sale of the same that evening. 135tf

Have you a picture to frame? See D. M. Clark & Co. 241tf

NORTH LONG LAKE.

Mr. W. Johnston is having a well dug. J. H. Rhodes called at Hughey's last Sunday.

John Peterson is having his threshing done this week.

Prof. J. A. Wilson visited our school Monday afternoon.

John Peterson is going to move to town for the winter.

Walter Lang will live on the Peterson farm this winter.

Miss Emma Theilander will leave for Chicago next Tuesday.

Quite a number of our young men are going to the woods to work this winter.

Rev. H. W. Knowles will preach in the Gibb school house at 3 p. m., Nov. 12. Everybody welcome.

Miss Sarah Edland will leave for Cloquet next Tuesday. She will attend school there this winter.

The box social given for the benefit of the Lutheran church was well attended. They made \$23.80.

COUNTRY COUSIN.

A Disastrous Calamity.

It is a disastrous calamity, when you lose your health, because indigestion and constipation have sapped it away. Prompt relief can be had in Dr. King's New Life Pills. They build up your digestive organs, and cure headache, dizziness, colic, constipation, etc. Guaranteed at H. P. Dunn & Co.'s drug store; 25c.

D. M. Clark & Co. carry the largest line of heating stoves in the city. Coles Hot Blast burns any kind of fuel. 92tf

PRESIDENT TIGHE ALSO HAS ENGINEER

A. H. Hunkins, of St. Croix Falls, Gathering Data for Water Works Improvements

IMPROVEMENTS CONTEMPLATED

Some of the Opinion that Scheme Also Includes New Steam Power Plant

President Tighe, of the Minnesota Water Works company who has returned to his home in St. Paul after a few days spent in the city has transacted considerable important business while here, business which if disclosed might prove of interest. The city had an engineer here a short time ago, going over the ground making such investigation was deemed necessary in arranging for a water works plant. President Tighe this time also had an engineer of wide experience in this line of work. His name was A. W. Hunkins and he was from St. Croix Falls, Wis.

It is understood that the ground was gone over carefully and such data secured which would be necessary in a complete overhauling of the plant. Some are of the opinion also that the scheme also included a proposed new steam power plant for Brainerd.

Hundreds of lives saved every year by having Dr. Thomas' Electric Oil in the house just when it is needed. Cures croup, heals burns, cuts, wounds of every sort.

To California Without Change.

The North-Western Line has inaugurated through tourist car service to California: these cars leave Minneapolis and St. Paul every Tuesday, Thursday and Saturday and are modern, wide vestibuled cars. For information as to rates, train service, etc., write to T. W. Teasdale, G. P. A., St. Paul.

CROW WING ITEMS.

G. W. Young is expected home from Wisconsin this week.

Nels Bush, of Ausland was a Crow Wing caller one day this week.

Harry Gibson and Jesse Bailey have both returned home from the west.

Mrs. Beulah Clark, of Chicago, has arrived in Crow Wing to visit her grandmother, Mrs. Benson.

Anna Donahue has returned home from Fort Ripley, where she has been working for some time.

The dance given by Mr. Flansburg in Crow Wing hall last Saturday night was a decided success and everybody reports a pleasant time.

Remember the dance and basket social to be given in Crow Wing hall Wednesday night, Nov. 15, by the U. O. F. Everybody are invited.

Mr. Dowling, son Willie and Eddie Abear, of Mission, passed through Crow Wing last Saturday on their way to St. Cloud with a herd of cattle which he intends to place on his farm near that place.

NEW COMER.

Obstinate constipation, indigestion and stomach disorders are permanently and positively cured by taking Hollister's Rocky Mountain Tea. 35 cents, tea or tablets. H. P. Dunn & Co.

Report of School District No. 31.

For the month ending Nov. 3, 1905:

No. of days taught.....20

No. of pupils enrolled.....32

Average daily attendance.....15

Pupils who came every day and were not tardy were, Nancy Spohn.

Pupils who came every day were, Nancy Spohn, Nora Clark.

Pupils missing but one day were, Nancy and Earl Bloomquist, Luther Carlson.

Pupils missing not more than two days were, Mable Brockway.

No. of visitors during month, four.

Good work done by all.

ARRESTED AT LOS ANGELES.

Vice President Force of Northwestern Life Company.

Los Angeles, Cal., Nov. 9.—Dr. Jacob Force, vice president of the Northwestern Life Insurance company of Minnesota, was arrested here during the day by Detective Jones of the local detective department. He was arraigned before Justice of the Peace Young, who ordered his release on \$5,000 bail, which was provided. The charge is grand larceny, and is made in Hennepin county, Minn. Dr. Force is a retired physician and has been residing in Los Angeles for some time past. He claims that he resigned as an officer of the insurance company a year ago.

Dr. Force left for Minneapolis at once to enter a plea of not guilty before the Minnesota courts and put up a bond, after which he will return to Los Angeles.

Special Sale!

FOR THURSDAY, FRIDAY and SATURDAY.

ESDON AND VICINITY NOTES.

(Special Correspondence.)

Rumors are heard of an iron strike near Rosenkranz.

Mr. and Mrs. Ed. Elmore are the proud parents of a baby girl.

Edgar Walker, who is employed as a millwright at Minneapolis, is visiting his father, the postmaster at Esdon.

A new rural route through Esdon and vicinity commencing at Deerwood is expected to be opened soon.

The Donaldson farm residence east of Brainerd is being improved by Mr. McCulloch, manager of the poor farm.

The John Hammett residence has been improved by being plastered in a fine manner by Sinyey and Hoffbauer, of Brainerd.

The handsome residence on the farm of Lewis Albert east of Brainerd has been completed and newly painted and is a fine type of a rural home.

Bay Lake township can successfully lay claims to having some of the finest roads in the county. Grading and other improvements are being constantly made.

Sheep are being raised by quite a few farmers. The Gergen flock being a particularly fine example of this industry. They stand the climate well and are great foragers.

The Peterson residence, a commodious home near Partridge lake, is another fine type of a rural home. It is a splendid locality for the summer visitors of the cities, offering fishing, hunting, boating and other amusements. Hardwood floors and the best kind of finishing is used throughout the building.

Lamotte Hammett, the enterprising tubular well man of Esdon, made a hurried trip to Deerwood last week, and the girls are wondering what the attraction can be. Mr. Hammett holds the record for deep drilling, having struck good water for the O'Brien creamery of Brainerd, at a depth of over 213 feet.

Oats, hay and wheat did well here, but potatoes were a short yield. As an experiment Mr. Hammett set out four rows of raspberry bushes 40 feet long. The berries picked supplied the family needs as well as several friends, and in addition brought over \$17.00 when sold in Brainerd. Plums and apples also did well throughout Bay Lake.

The Esdon school in district No. 42 now has a membership of over 20 pupils and includes several Chippewa Indians. The contract for the transportation of pupils from school district No. 83 to the Esdon school has been secured by R. J. Maghan. The teacher who is successfully presiding over the two districts is Miss Jennie Martin, of Brainerd. Last week some belated Halloween enthusiast tied the bell cord into a regular shoestring knot, and the black eyes of the pretty schoolma'am flashed when it was found impossible to ring the 8:30 bell. At noon some boy did the hero act and climbed up into the belfry and untangled the rope.

The Martin Scipp farm has been improved by the completion of a fine residence, the plastering being done by Sinyey and Hoffbauer, of Brainerd. Mr. Scipp and family are new residents of our county, having recently removed from Oklahoma, I. T., where Mr. Scipp still retains extensive interests. He came to Minnesota in search of health and has an ideal farm lying near Scott and Border lakes, where duck shooting and fishing make his place a sportsman's paradise. The only drawback at

present is the need of a good road to his home which could easily be supplied by opening up a road surveyed and recorded years ago by the county. Every encouragement should be offered new settlers who invest time and money and improve outlying farms more in one year than many old timers do in five years.

To the stay at home Brainerd man or city visitor a trip through this vicinity is a revelation of what can be done by good honest farming. On the 20 mile trip back to town a reporter of THE DISPATCH passed 25 teams loaded with everything imaginable, ranging from windmills, pumps, stoves, lumber, lath, shingles, plaster, down to groceries, hay and feed. The Vineland tote team, drawn by four heavy horses, covered ground in fast time. The only empty wagon was driven by a Dakota harvester whose pockets, however, were loaded with \$150 in cash. The catalogue house has its literature scattered through the country, and its ad in every farm, stock and family paper seen whether printed in English, German or Scandinavian. THE BRAINERD DISPATCH has a large rural circulation and an ad effectively written and offering attractive bargains is sure to be read. The catalogue house advertises constantly and consistently, in good times or slow times, and is an example of what newspaper advertising accomplishes.

Son Lost Mother.

"Consumption runs in my family, and through it I lost my mother," writes E. B. Reid, of Harmony, Me. "For the past five years, however, on the slightest sign of a cough or cold, I have taken Dr. King's New Discovery for consumption, which has saved me from serious lung trouble." His mother's death was a sad loss for Mr. Reid, but he learned that lung trouble must not be neglected, and how to cure it. Quickest relief and cure for coughs and colds. Price 50c and \$1.00; guaranteed at H. P. Dunn & Co.'s drug store. Trial bottle free.

Accounts Due at Store.

All accounts due the firm of McCarthy & Donahue are payable to E. J. Donahue at the old McCarthy & Donahue stand.

MUSIC AND DRAMA.

"THE HOLY CITY" TONIGHT

"The Holy City," Gordon & Bennett's great Biblical play, will be seen at the Brainerd opera house tonight and there is already a very good advance sale for the performance.

Large and appreciative audiences are welcoming this magnificent Biblical drama, the second season being apparently of greater importance than even the remarkable first. That theatre patrons are entertained and bettered by the ever-beautiful and touching story—old as Christendom, founded upon gospel truths and the teachings of the Nazarene, will not be disputed by any who have witnessed the performances. Every man, woman and child in the land should listen to and see this pure, instructive, illustrative story of the days of our Saviour when here among men. The vivid setting forth of teachings which make all mankind kin, provide education which is inexpensive and instruction worth a countless price to those who heed and who will endeavor to apply the simple, powerful examples. Prices \$1, 75, 50 and 25c.

Hives are a terrible torment to the little folks, and to some older ones. Easily cured. Doan's Ointment never fails. Instant relief, permanent cure. At any drug store, 50 cents.

Edward Baxter Perry

The following is taken from the St Paul Pioneer Press regarding the playing of Edward Baxter Perry, who is to appear at the First Congregational church on Monday evening, Nov. 13, under the auspices of the Brainerd Ladies' Musical club:

"His playing was faultless, the execution exceedingly brilliant, and the program a most interesting one throughout. His interpretation of Chopin was especially happy."

"Thank The Lord!"

cried Hannah Plant, of Little Rock, Ark., "for the relief I got from Bucklen's Arnica Salve. It cured my fearful running sores, which nothing else would heal, and from which I had suffered for 5 years." It is a marvelous healer for cuts, burns and wounds. Guaranteed at H. P. Dunn & Co.'s drug store; 25c.

NOKAY NOTELETT.

J. H. Dickinson spent Sunday at Nokay Lake.

Rev. Parish held services in the school house on Friday evening last and all who were there were well pleased with the talk which he gave.

Mr. and Mrs. J. H. Dickinson wear a smile now, because they are grandpa and grandma. Mr. and Mrs. Ernest Dickinson, of Duluth, have a baby boy.

Mrs. Andrew Tollefson has been very sick the past few days, but was some better at last report. Her many friends and neighbors all hope to see her about, and with us, very soon.

It was reported on Sunday last that a basket social will be held in the Grave Lake school house on Friday evening, Nov. 10. Everyone is invited to attend and have a social time.

We are again reminded that winter is coming. Many of our elders are dreaming of the cold days which are sure to come. But our jolly skaters living near Nokay lake are patiently waiting for the lake to freeze over.

Mr. Stickney and Mr. Curtis, of Brainerd, were at Nokay Lake on Wednesday evening last, and organized the Yeoman lodge. There were several of our people who took the tight grip of Yeoman, and several more will join on Wednesday night of this week. The goat is in good trim. Come on boys and have a ride.

A young gentleman from Grave Lake called at Nokay Lake on Saturday last. His brother was with him. They had a boat, and while his brother went to find a box which they might use as a seat, he sat on the edge of the boat and patiently waited for his brother's return, little thinking that it would be a possible thing to tip over. But before many moments were lost he found himself in the water with the boat on top of him. Poor Bill! Please accept sympathy.

"THE TATTLER."

Man's Unreasonableness

is often as great as woman's. But Thos. S. Austin, Mgr. of the "Republican," of Leavenworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife, for female trouble, "instead," he says, "we concluded to try Electric Bitters. My wife was then so sick, she could hardly leave her bed, and five (5) physicians had failed to relieve her. After taking Electric Bitters, she was perfectly cured, and can now perform all her household duties." Guaranteed by H. P. Dunn & Co., druggists, price 50c.

COMMERCIAL USE FOR THE BRANDYWINE

Stream Riley Made Famous to Be Changed Into a Ditch.

DRAINING ITS MARSHES PROPOSED

Once the Creek Is Straightened and Deepened, Farmers Owning Marsh Land Will Be Able to Raise Bountiful Corn Crops—Hoosier Poet's "Old Swimmer" Hole Not What It Used to Be—Old Rail Fences Gone.

They are going to commercialize the Brandywine—to market the ripples of "The Old Swimmer" Hole" at so much a ripple, or, in other words, make the stream earn its "board and keep," says a Greenfield (Ind.) correspondent of the Indianapolis News. Instead of a happy little wanderland wanderer it is to be imprisoned and desecrated with the name of "ditch!"

It was James Whitcomb Riley that gave the world a heart interest in the Brandywine. The poet of Lockport street spent many days of a happy boyhood on its tree bordered banks. The Brandywine is only a creek, a wild, crooked, go as it pleases creek. It begins its journey toward the sea somewhere above the little town of Maxwell, Hancock county, and winds around toward Greenfield, passes there on the eastern side of town and squirms and twists until the Blue river claims it some twenty miles below Greenfield. Its bed is of mosses, swamp grasses and is much more spongy than any child of Africa. But the crystal goblets of the gods could not be clearer than the waters of the Brandywine. It is one of nature's mirrors. The shadows of the saplings and the sycamores dance upon the ripples. The water grasses wave to and fro at the will of the varying currents, and the whole family of woodland creatures seems to be constantly a picnic on the Brandywine.

The creek has changed little in character since Riley was a boy, although there are those who say that the erratic stream has changed its course just enough to leave "The Old Swimmer" Hole" of Riley's day forty feet ashore. However, it is still the Brandywine, the trees still shade its waters as of yore and altogether it is about the same as when they called him "Jimmy." But the old rail fences are gone. Instead there are long strands of barbed wire, and along the Brandywine they seem as one of the curses of progress.

Riley's "Old Swimmer" Hole" was about a quarter of a mile back of Kit Kirkpatrick's barn—a landmark in Greenfield—and something like a mile east of the Hancock county courthouse. It was marked by an old "sickamore" that stood about a hundred yards below what is now the Park avenue ford. In Riley's day it was simply "the ford," a treacherous spot on the Brandywine where more than one venturesome youth has been cast into a swirling torrent in attempting to drive across the stream when it was out of humor.

The "Old Swimmer" Hole" had only a local reputation prior to June 17, 1882. On that date Riley, writing under the homely nom de plume of "Benj. F. Johnson of Boone," gave to the old Indianapolis Journal the poem that brought the Brandywine to fame.

The Brandywine flows for a considerable distance through a marsh land. Hundreds of acres of ground that is in its present state unfit for agricultural purposes borders the creek on both sides, and it is for the purpose of reclaiming this land that the farmers of Hancock county propose to deepen and straighten its channel. Several months ago ten owners of property along the Brandywine filed a petition with the county commissioners asking that the creek be deepened to drain the marsh lands. Immediately there was an outcry of disapproval, and thousands of names were affixed to a remonstrance. The matter has gone through numerous court procedures, but by virtue of a trivial legal technicality the petitioners have won their fight thus far, and it is practically settled now that the Brandywine is to lose its poetry and to become a ditch.

The improvement will cost the farmers of Hancock county and the property owners of Greenfield more than \$40,000. In fact, there are those who say that before the work is completed it will reach into six figures. The argument is made by the petitioners that Greenfield will be benefited by the deepening of the creek because it will serve to carry off the city's sewage. Greenfield has almost unanimously spoken against it, yet the petitioners appear to have the better of the argument. Every property owner in Hancock's capital will be assessed to pay for the work.

According to the figures of County Surveyor Monger, the ditch will drain 38,400 acres of land. The surveyor and his men are already at work making estimates and placing stakes that will show the amount of fall. The dredge will begin its wrecking of the poetic Brandywine about six miles east of Maxwell, Hancock county, and continue to the south county line, a distance of more than twenty miles. Every wagon bridge that crosses the stream will have to be removed. It is possible that only one bridge will be allowed to remain during the progress of the work—the Pennsylvania bridge east of Greenfield, mentioned in Riley's poem. It is thought that the dredge will be able to pass under it. The bridge question is one of the strong points of dispute, as it is charged by the antidredge adherents that the removal of the old

bridges will mean endless expense in the construction of new ones. There will be ten highway bridges and four railroad bridges in the path of the dredge.

Another feature of the great task will be the digging of arins for the main ditch. It is proposed to drain eighty-five sections of land either with tributaries or by the main ditch. One feature of the work that will lessen the cost is the condition of the bed of the Brandywine. The dredge will encounter little gravel or stone. For the greater part of the distance it will dig into a black muck, the same as borders the stream for miles on both sides. It is figured that, once the Brandywine is straightened and deepened, the farmers owning marsh land will be able to raise bountiful crops of corn. In its present state it is practically worthless. In the upland property is held in the market at from \$125 to \$200 an acre; in the marshland the greater part of it cannot be sold at any price, and it is hopeful land indeed that brings \$35 an acre. The ditch will send the marsh land up to a figure equal with that on the higher level. During the greater part of the year the land along the Brandywine is covered with swamp grasses, and even cattle cannot venture upon it because of the danger of mire.

The county surveyor will report on the probable cost of the work on Nov. 25, at which time the damages and benefits will be fixed. If the weather remains favorable and there is no other legal obstacle to encounter, the work of making the Brandywine a commercial waterway will begin this fall.

GAME BIRD PRESERVES.

National Breeding Grounds Planned on Islands in Lake Superior.

By a proclamation of President Roosevelt, a copy of whose order has been transmitted to the Marquette land office, all the unsurveyed lands in the Huron and Siskiwitt groups in Lake Superior are set aside as preserves and breeding grounds for native birds, says a special dispatch from Marquette, Mich., to the New York World. The action taken is in line with the movement creating forest, game and bird preserves on government lands adapted for the purpose in all parts of the United States.

The islands affected by the president's order are remote from civilization, an important factor in carrying out the plan of creating a breeding ground. It is not the purpose of the department of agriculture, to whose jurisdiction they have been transferred, to make improvements on the islands, but to allow them to remain in their native wildness, maintaining constant surveillance in the matter of restraining trespassers and preventing hunters and trappers from visiting the places.

In the Huron group there are a number of small islands which do not appear on the official maps of the government land office. Some of them contain less than a section of land, while others include within their boundaries from 500 to 600 acres. It is also ordered that all bodies of land that may hereafter be discovered and designated on the maps shall be included in the order as withdrawn from public entry, the whole group to be known as the Huron island reservation. There are eight full sections reserved in the Siskiwitt, or Menagerie, group, located near the mouth of Siskiwitt bay, on the south side of Isle Royale.

BRACE FOR GOLFERS.

Walter Camp's Device to Prevent Slicing in Golf.

Walter Camp, the Yale athletic adviser, has invented and patented a brace which, it is thought, will correct the common fault of slicing in golf, says a New Haven dispatch to the New York Tribune. In speaking of it Mr. Camp said that plans are being made to put it on the market early in the spring when the golfing season for 1906 opens. It is a brace to keep the left arm straightened in driving the ball.

The brace is fastened above and below the elbow, and the elbow is protected by a pad. The brace makes the leverage of the drive come from the shoulder instead of being partially transmitted by any motion at the elbow. It makes the point of application in the leverage a foot longer than if the transmission was from the elbow.

The National Game in Hawaii.

When the two other companies of the Tenth Infantry get here, says the Hawaiian Star, maybe a baseball team can be organized that can beat the Chinese Athletic club.

A Seasonable Ballade.

Now is the season when, every day,
Over this country far and wide
The college lads meet in their boyish way
For regular practice in homicide.
Over the gridiron their manly stride
Fills our hearts with admiring awe.
All together we voice our pride:
"Eat 'em alive, fellows! 'Rah, 'rah, 'rah!"

Hark, 'tis the referee's signal, "Play!"
"Kill that guard—he's a yard off side!"
Crack! (That's the quarterback's vertebral)
Rip! (That's the opposite halfback's hide.)

"Take out time, there—the score is tied.
He's not hurt—just a busted jaw.
There, thank goodness, the man has died—
Eat 'em alive, fellows! 'Rah, 'rah, 'rah!"

What care we for the men they stay?
Several more on the bench abide.
Cased in armor of dirty gray,
Where many a foeman's gore is dried.
Some in the ambulance get a ride;
Some in the hearse, yet they gouge and claw—
Who shrieked "Mercy?" The crowd replied:
"Eat 'em alive, fellows! 'Rah, 'rah, 'rah!"

—Cleveland Leader.

FOR SAFETY AT SEA.

Desirable Changes in the International Rules.

Shippers in the United States have been asked by the department of commerce and labor to submit views as to the need of modifying the international rules for preventing collisions at sea, says the Washington correspondent of the New York Tribune. The letter of inquiry has gone out from the department on account of a proposal from the British government, as a result of Rojestvensky's fleet attacking the North sea trawlers, that maritime interests consult together, with a view to perfecting the signal service used by vessels to avoid ocean disasters.

A list of changes deemed desirable by the British government was submitted along with the request for co-operation in the matter. These suggestions are amendments to the rules which were adopted by the international marine conference which met in Washington in 1889. The changes apply particularly to the protection of fishing vessels and trawlers in the open sea. England is especially interested in providing greater safety for these vessels, in view of the number that have been run down in the North sea, where vessels of all nations ply. America has not such a large interest, as the fishing on the Newfoundland banks is off the track of the great liners and the other great fisheries region off Alaska is comparatively free of travel and much of the fishing, moreover, is done in the rivers and bays.

Under the present international rules fishing vessels of less than twenty tons net registered tonnage when under way and when not having their nets, trawls, dredges or lines in the water are not obliged to carry side lights, but to prevent collisions, must have ready at hand a lantern with a green glass on one side and a red glass on the other side. It is proposed to strengthen this rule.

The proposed British amendments specify particularly the lantern signals of trawlers, to make them distinct from vessels fishing with lines or nets. When engaged in trawling, by which is meant the dragging of an apparatus along the bottom of the sea, the vessels, if steam, it is proposed, shall carry a tricolor lantern so constructed as to show a white light from right ahead to two points on each bow and a green light and a red light over an arc of the horizon from two points on each bow to points abaft the beam on the starboard and port sides respectively, and not less than nor more than twelve feet below the tricolor lantern a white light in a lantern so constructed as to show a clear light all around the horizon. Sailing vessels engaged in trawling must show a white flare up light in addition to the usual lantern. Modifications are proposed with special reference to the fisheries in the seas bordering the coast of Japan and Korea.

Deafness Cannot be Cured.

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHESEBURY & Co., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

A Year of Intense Suffering.

Mrs. Carrie Askey, Cumberland, Wyo., suffered for more than a year with sore throat and a tickling in the throat, that kept her coughing night after night. She used Warner's White Wine of Tar and has not lost a night's sleep since. Write her.

Thought to be in the Last Stages of Consumption.

I have just received the White Wine of Tar. We think there is no medicine like it. It cured me when I was thought to be in the last stages of consumption. I will always recommend it to those that have any disease of the lungs.
